

Thank you for your interest in Blue Renewable Energy. As a late stage developer and financing partner we are actively seeking “shovel ready” Solar Energy Projects. This sheet briefly describes our process and our criteria when evaluating projects.

Project Overview

Developer / Integrator:		
Main Contact:		
Phone Number:	Email Address:	
Street Address:		
City:	State/Territory:	Zipcode:
Country:		

Project Details

Project Name:		Type:
Address:		
City:	State/Territory:	Zip Code:
Country:		
Target Installation Date:		Target Commissioning Date:
Is the PPA executed yet?	If not, how long until executed?	
What is the PPA price?	What is the PPA Term?	
PPA escalator percentage?		
Please describe price and term of incentives? <i>Ex. REC, PBI, Etc</i>		
Monthly O&M Costs:		Monthly Lease Expense:
Is the Interconnect in place?	If not, how long until it's in place?	
Are the permits in place?	If not, how long until it's in place?	

System Specifications			
Generating Capacity:		W DC	Type of Mount:
Production Target:		kWh AC / Year	Derate Factor:
Shading Analysis Method:		Shading Analysis (%):	
Array Tilt:	Degrees	Design Wind Load:	
Array Azimuth:	Degrees	Design Snow Load:	

When submitting a project for an initial review, please include the follow information:

- Proforma
- Construction Budget

Blue Renewable Energy evaluates projects based on risk, construction start time and cash flows. Please keep in mind that we are strictly looking for projects that will be ready to break ground within 3 months of the initial submission with our firm. If a project is **not** mature and does **not** have the proper permits and agreements please delay presenting it.

Upon acceptance of the project, Blue Renewable Energy will issue a Term Sheet for the project along with a complete checklist of documents needed. This Term Sheet will outline the terms and conditions for moving forward with the transaction.

Developers, please keep in mind that the industry standard developer fee is **4-7%** of the project amount and the reimbursement of project expenses paid to date by the developer.

Upon execution of the Term Sheet by both parties, Blue Renewable Energy will ask that you complete our Project Information Form (PIF) and submit all supporting documentation requested. Once all information is fully reviewed and accepted, Blue Renewable Energy will move to Purchase Agreement followed by a closing. If you have any questions or would like more information please contact us.
